7.1 REGISTRATION

Drivers must register and sign the insurance waiver in person before they will be allowed into the grid area for practice or racing. Minors must sign the waiver with a parent or guardian. Failure to register before entering the track or restricted areas may result in a penalty of last place starting position for all races that day. Qualifying starts 2 hours before the scheduled racing time for the day.

7.2 RAIN OR SHINE

Racing will be scheduled rain or shine.

7.3 STARTING GRID

Qualifying with transponders will determine the starting position in the race.

The best time in qualifying will start on the pole.

7.4 DRIVER APPAREL

Members are required to wear clothing that is consistent with the activity. Apparel specifically designed for kart racing is ideal. Members may also wear full length pants, socks and sports (running) shoes, gloves and a jacket. No track pants or ripped clothing will be tolerated.

Shoes, socks and full-finger gloves must be worn during all driving activities **(NO EXPOSED SKIN)**. If hair extends beneath the helmet level, it is mandatory that participants wear a balaclava or head sock.

Shoelaces must be tied tightly and tucked in or taped so that they cannot come loose or bounce around.

High top shoes are recommended.

7.5 QUALIFYING

Extreme caution must be exercised during qualifying with no wheel-to-wheel racing. Slower karts will have the right of way. During qualifying karts will only pass on the inside.

7.6 DRIVERS MEETING

A driver's meeting will be held on race day. The Race Director may establish special conditions and/or regulations at that time. All drivers must attend or they may be penalized.

7.7 PIT AREA

The pit area is a restricted area of the track and is under complete control of assigned officials. Only drivers being called onto the grid by officials may enter that area.

7.8 ACCESS TO RESTRICTED AREAS

Persons entering the grid and/or restricted areas must comply with all insurance regulations and registration procedures. Failure to do so or entrance by fraud, deceit, or passage into the area except by designated gates will subject the individual to immediate removal from the restricted area and possible suspension of membership privileges.

7.9 GRID

When you are called to the grid you are under the Grid Marshall's control. It is your responsibility to check the board for your starting position and line up accordingly. Each class will enter the track upon being instructed to do so by the grid marshal. Drivers will exit the grid and enter the track in their starting position order. If a driver breaks down on the grid, a new kart will be supplied and the driver must join and start at the back of the field. Drivers must be on the racing circuit prior to the green flag being displayed or they will not be allowed to participate in that heat.

7.10 HOT LAPS

All classes will complete one of warm up lap, in single file and per grid order – NO PASSING. The warm up lap will be run under full track yellow. Drivers breaking down, spinning out, involved in an incident or passing during the warm up lap may be placed at the back for that race if they are able to continue.

Towards the end of the warm up lap, karts will slow down and be directed by corner marshals to accelerate and get ready to take the green flag which signifies the start of the race.

7.11 PACE LAP & OFFICIAL START

Once your class has started the warm up lap you are under control of the Start/Finish marshal. The Start/Finish marshal is responsible for ensuring safe and fair starts and relaying information to the racers through the use of the various flags. No one is to approach this marshal during racing unless summoned for a consultation.

7.12 It is the responsibility of the front kart to follow the marshals' instruction during the warm up lap. No one may pass on the warm up lap. No tire scrubbing, any kart found weaving or scrubbing tires during the pace lap may be put to the back of the field or disqualified from the race.

7.13 After the green flag has been waved, participants may not pull out of line, change lanes or pass until the designated first passing zone is reached. Typically this first passing zone will be in or before corner 1 and will be indicated by the position of a pylon. The race director will provide this information during the driver's meeting.

7.14 RESTARTS

If a kart spins or an incident occurs, the race director may call for full course yellow flags. At the discretion of the Race Director anyone causing and/or involved in an accident may be placed at the back for the restart or disqualified from the race. If a race is restarted because of an accident or blocked track, drivers involved may be directed to the pit area or to rejoin at the last position. Racing will begin again when drivers are instructed to accelerate and the Start/Finish marshal displays green flag. The same rule applies in regard to passing; no passing before the designated passing cone on the track.

7.15 PASSING

Karts may pass on the inside during qualifying and on the right or left during racing. Caution must be exercised when overtaking another kart. It is the responsibility of the overtaking kart to pass in a safe fashion. There must be no contact made on a passing maneuver in the corners or on the straightaway. Contact may result in a penalty. All karts must be alert to overtaking traffic and maintain a constant path on the track. Karts entering a corner together have equal rights to the corner. Anytime your rear wheels are broken (passed) by another karts front wheels, you must give the other driver room to race. If contact is made, you may be penalized or disqualified from the session or race. Should contact be made when overtaking, it could be judged by race officials that both drivers were not being good sportsmen and both could be disqualified from the session or race and penalized. The Race Director may designate certain portions of the track as NO PASSING zones.

7.16 RED FLAG ACCIDENTS

A race will be red flagged if a kart goes upside down (flips) or at the discretion of the Race Director. If a red flag situation occurs, drivers must stop racing immediately, slow down and proceed in single file and at very slow speed to the start/finish line. Drivers may be instructed to stop on the track at anytime and must obey instructions from race officials and marshals at all time.

7.17 LAPPED KARTS

Participants about to be lapped by faster competitors are responsible for being aware of the approaching faster karts and must yield the racing line until the faster karts have passed. Lapped karts will observe the blue flag and yield to leaders or subject themselves to a disqualification.

7.18 RACE COMPLETE

A race will be considered complete when all laps have been completed or at the discretion of the Race Director. Once the pole position member has taken the green flag for the first time all full yellow laps will count as one completed lap.

7.19 EXITING TRACK

Once the checkered flag has ended your race, you must continue around the entire track in the proper finishing order. The winning kart will not be allowed to complete one additional victory lap with the checkered flag.

7.20 COURSE MARKINGS

Pylons or other markings designed and placed by race officials must be observed. If in the opinion of the Race Director, a participant is intentionally ignoring course markings, the participant may be subject to disqualification from that race.

7.21 SPORTSMAN-LIKE DRIVING

The spirit and intent of sportsman like racing competition is to proceed on the track without touching or endangering the karts of fellow participants. Also give racing room. Inadvertent contact is a reality of racing; however, if in the judgment of the race officials, a participant is bumping, crowding, chopping, blocking, or pushing other participants, that participant may be penalized.

7.22 DIRECTION OF TRAVEL

It is mandatory that all competitors strictly observe the direction of travel around a track. Failure to do so, by driving or pushing a kart opposite to normal direction of track, unless specifically directed by a race official, may subject the participant to disqualification and/or suspension.

7.23 STOPPING ON COURSE

If for any reason a competitor is forced to stop on or near the course during practice, qualifying or racing, it is the responsibility of the competitor to assist in removal of the kart to a safety zone as quickly as possible. If a competitor is forced to stop on the racing surface during practice, qualifying or racing, the competitor must raise one hand as they slow down and raise both hands when stationary, to signal approaching competitors that they are stopped.

7.24 RE-ENTRY TO COURSE

When a competitor leaves the course other than to a designated pit lane during the practice, qualifying or racing, they will re-enter the racing surface at a point as far from the racing "line" as possible. They may not enter at another point on the course that will provide them any time or distance advantage. . Any kart that has entered the pit after the green flag has been displayed will be DQ and will not be allowed back into the race. Drivers must abide by the directions of the officials in charge.

7.25 SLOWING ON COURSE

When a kart slows from racing speed on course, the driver must signal such to approaching competitors by raising a hand high enough to be clearly visible from behind. This requirement includes raising a hand when slowing to enter at the pit entrance during an event or a full course yellow.

7.26 DRIVER OF RECORD

To be considered the driver of record for an event, a competitor must qualify their kart (if applicable) and/or complete at least 1 lap of an event. There are no driver substitutions or relief drivers allowed.

7.27 DISCUSSION WITH THE RACE DIRECTOR

Discussion with the Race Director - means the verbal exchange of ideas. Race directors are more than willing to listen to anyone's point of view when it is discussed in a mature civilized manner.
